

CLOUD MIGRATION OVERVIEW

Your journey to the Cloud

StarRez is ready to help your team
make a smooth transition to the Cloud.

The StarRez Cloud

Always evolving to keep you on the cutting edge

99.9% availability guarantee

StarRez is committed to a future that leverages the best cloud-native technology whilst providing a secure and resilient platform.

- ✓ Always on the latest StarRez version
- ✓ Cloud-only features like Rez 360
- ✓ Access our StarCare team even faster (no waiting time for remote access)
- ✓ Reduced risk
- ✓ Reduced IT resources
- ✓ No more server hardware upgrades or large capital expenditures
- ✓ Backups fully managed
- ✓ Disaster recovery handled by StarRez & Microsoft
- ✓ Join our Early Access Program (EAP)
- ✓ Lower your total cost of ownership

“The Cloud migration has been received extremely positively by our campus. We’re taking advantage of all the enhanced functionality, new features, and tools that StarRez has available.”

— Greg Whitmore

Committed to privacy and cyber security

Our community rest easy knowing theirs and their residents information is safe, their interactions are secure, and their businesses are protected. Our PCI DSS validation, SOC2 Compliance and Microsoft's 90+ compliance certifications demonstrates StarRez's ongoing commitment to meet and exceed data security protection standards.

Microsoft Gold Partner

We use one of the most trusted, reliable and scalable platforms for cloud solutions. Data centers in each region, highly resilient plus we take care of backups and disaster recovery using the Microsoft Azure platform

Who's involved?

We're with you every step of the way

STARREZ

Project Manager

Your main contact and partner who will work with you to oversee the transition from on-premise to cloud.

STARREZ

Implementation Specialists

Our team of implementation specialists are technical experts that help ensure your data and integration seamlessly transitions to the cloud.

Collaboration is at the heart of our projects

We will work closely with your team to ensure a successful cloud migration path.

YOUR TEAM

Customer Project Leader

Your project leader will help communicate with the internal stakeholders on the project plans and be involved to verify the post cloud transition is tested and ready to go.

YOUR TEAM

Technical Contact

We work in partnership with your internal IT team to ensure considerations such as IP addresses, email configuration, file transfers, interfaces and more are managed.

"It's been probably the easiest transition I've ever known. We're happy, we like it, it's taken a huge load off our central IT team."

— Ann Marie Hall

What's the plan?

Most customers are live in 60-90 days from kick-off.
Our team will help navigate the milestones below.
